

HOARD FAST[®]
 internal screening system for rapid segregation

MODULAR PARTITIONING SYSTEM

The Hoardfast range is a quick to install, modular, part-height free-standing or floor-to-ceiling partitioning and screening system.

Hoardfast can be used as a temporary screen, permanent partition or to create internal rooms.

Available in a range of panel, support feet and stability options, Hoardfast's smart appearance fits seamlessly into any environment.

Panels supplied offer varied fire ratings (certifications are available on request) and panels within the range are available for purchase or hire.

Key features

No mess, quick/easy install and demount

Sustainable (uPVC made from recycled plastic)

Relocatable and reusable

In-stock items with UK next day delivery

Choose hire or purchase, and install service or supply only

Cost effective - Save £££'s

Typical uses include;

- Free-standing solid dust screen during maintenance and installation projects
- Create separate rooms and areas in manufacturing facilities to prevent cross contamination (washrooms or allergen controlled zones)
- Protective barriers for pedestrian walkways and designated areas
- Privacy or noise barriers/screens
- Use alongside the Flexi range of products when a solid interface is required

Benefits

- Choose from a range of panels including fire resistant and sound reducing options
- Range of panels/sizes
- Floor-to-ceiling or part-height solutions
- Free-standing options prevent damage to floors (high stability available for high traffic areas)
- Supply only or use our certified and experienced Westgate installation teams
- Products delivered to site clean and ready to use
- High quality appearance for customer areas
- Optional extras include, single and double doors, vision panels and graphics
